John Russell, 1st Earl Russell, KG, GCMG, PC, FRS (18 August 1792 - 28 May 1878), known by his courtesy title Lord John Russell before 1861, was a British Whig and Liberal statesman who served as Prime Minister of the United Kingdom from 1846 to 1852 and again from 1865 to 1866. The third son of the 6th Duke of Bedford, Russell was educated at Westminster School and Edinburgh University before entering Parliament in 1813. In 1828 he took a leading role in the repeal of the Test Acts which discriminated against Catholics and Protestant dissenters. He was one of the principal architects of the Reform Act 1832, which was the first major reform of Parliament since the Restoration, and a significant early step on the road to democracy and away from rule by the aristocracy and landed gentry. He favoured expanding the right to vote to the middle classes and enfranchising Britain's growing industrial towns and cities, but he never advocated universal suffrage and he opposed the secret ballot. Russell was outspoken on many issues over the course of his career, advocating Catholic emancipation in the 1820s, calling

Your faithful and obedient, WE Gladstone'. William Ewart Gladstone FRS FSS (29 December 1809 - 19 May 1898) was a British statesman and Liberal politician. In a career lasting over 60 years, he served for 12 years as Prime Minister of the United Kingdom, spread over four non-consecutive terms (the most of any British prime minister) beginning in 1868 and ending in 1894. He also served as Chancellor of the Exchequer four times, for over 12 years. Gladstone was born in Liverpool to Scottish parents. He first entered the House of Commons in 1832, beginning his political career as a High Tory, a grouping that became the Conservative Party under Robert Peel in 1834. Gladstone served as a minister in both of Peel's governments, and in 1846 joined the breakaway Peelite faction, which eventually merged into the new Liberal Party in 1859. He was chancellor under Lord Aberdeen (1852-1855), Lord Palmerston (1859-1865) and Lord Russell (1865-1866). Gladstone's own political doctrine-which emphasised equality of opportunity and opposition to trade protectionism-came to be known as Gladstonian liberalism. On January 31, 1943, despite mechanical problems with his aircraft, he pressed forward with a mission and shot down five Japanese aircraft in minutes before being shot down himself. DeBlanc parachuted to safety and was rescued by native islanders, traded for a sack of rice, and picked up by a Navy seaplane. He received the Medal of Honor for his actions that day. He served in the Marine Corps Reserve until 1972. In that time, he also taught school and completed graduate and doctoral degrees in math, physics and education. Good condition Est. £10 - 14

Ron was a Pilot Officer at RAF Pocklington for around six months at the height of the conflict in 1943 and 1944. Bomber Command suffered some of WWII's highest casualty rates; but though they had several close calls Ron and his crew survived the 33 missions they flew from Pocklington. After 30 missions, Bomber Command personnel were able to stand down from active operations. But Ron's love of flying knew no bounds and he promptly switched to flying Spitfires and Hurricanes with Fighter Command, being awarded the Distinguished Flying Cross in May 1945 for his 'skill and fortitude in operations against the enemy'. He was further honoured in 2014 when he flew to France as one of seven Australian veterans to receive a retrospective Legion d'Honneur from French President Francois Holland. 212 - WW2 Pathfinder Henry Shackleton 405 sqn bomber command signed stunning 12 x 8 inch colour Lancaster in flight photo. In 1940 Henry left school and volunteered as a Pilot at the age of 18 and 9 months, receiving his Wings as a Pilot Officer at Cranwell College one week before he was 19. He was then sent to North Battlefield, Saskatchewan as a Flying Instructor . By coincidence his elder brother and sister were born in Saskatchewan, though he was born in the U.K. In 1943, with 1,500 flying hours, he was posted to Middleton St George, Darlington, U.K. to join the R.C.A.F 419 Moose Squadron where his R.A.F. crew did 18 bombing trips in their Halifax to Germany and Italy without mishap. Thet then volunteered to join Pathfinders and were posted to R.C.A.F 405 Squadron at Gransden Lodge. 4 Pathfinder trips on Lancasters , target Berlin, went without mishap, but on the 5th one on January 30/31st 1944 they were attacked by two nightfighters, resulting in the loss of use by their port wing forcing him to shout, abandon aircraft. His Wireless Operator, Red Williams put on his navigator chest parachute, then decided to get a bar of chocolate from his desk, taking off his parachute to put it in his tunic, then replacing his chute at which he heard an explosion as Henry was blown out of the cockpit . (He obviously was suffering from lack of oxygen as the Lancaster was in a spiralling dive) He jumped out of the hole in the cockpit and landed in a Berlin street, immediately taken prisoner . After being blown out, Henry pulled on what he thought was my parachute release, but it was release of his seat harness! When it fell away he searched again and to his relief the parachute opened before he fell onto a bush in a Berlin Park. Henry hid by day and walked by night but on the third night, just after people had come out of their shelter during another bomb attack, some children surrounded him, and he was taken to the Burgermasters house, where kind ladies bathed his face and gave him food. (One could assume they were thinking of their own sons bombing the U.K. and he always feel this should be said.) However, a pompous and drunken Army Officer took Henry to a Berlin police cell (which was warm!) A few days later he met Red Williams at the Frankfurt Interrogation Centre, who told him he had been taken to a crashed Lancaster and understood their other five crew members had lost their lives. Thereafter Henry spent until March 1945, as a P.O.W. in Stalag Luft 3. They all took part in the long march to the Germans last stand in Berlin, from which 400 of them escaped from the Camp across the river to the Americans. Good condition Est. £4 - 6

He survived ditching his Spitfire I (L1036) into the sea on 16 September 1940 after he ran out of fuel chasing a Junkers Ju 88 off Cromer. He was picked up by a Motor Boat and landed at Lowestoft.
