30 - St Nazaire raid WW2 photo signed by Commando Bill 'Tiger' Watson MC, 8x12 inch photo of HMS Campbeltown, shown rammed into the dock at St Nazaire, signed by Commando Bill 'Tiger' Watson MC, a Lieutenant with No2 Commando on the raid. The St Nazaire Raid or Operation Chariot was a British amphibious attack on the heavily defended Normandie dry dock at St Nazaire in German-occupied France during the Second World War. The operation was undertaken by the Royal Navy and British Commandos under the auspices of Combined Operations Headquarters on 28 March 1942. St Nazaire was targeted because the loss of its dry dock would force any large German warship in need of repairs, such as Tirpitz, sister ship of Bismarck, to return to home waters by running the gauntlet of the Home Fleet of the Royal Navy and other British forces, via the English Channel or the GIUK gap. The obsolete destroyer HMS Campbeltown, accompanied by 18 smaller craft, crossed the English Channel to the Atlantic coast of France and was rammed into the Normandie dock gates. The ship had been packed with delayed-action explosives, well-hidden within a steel and concrete case, that detonated later that day, putting the dock out of service until 1948. A force of commandos landed to destroy machinery and other structures. German gunfire sank, set ablaze, or immobilised virtually all the small craft intended to transport the commandos back to England. The commandos fought their way through the town to escape overland but many surrendered when they ran out of ammunition or were surrounded by the Wehrmacht defending Saint-Nazaire. Of the 611 men who undertook the raid, 228 returned to Britain, 169 were killed and 215 became prisoners of war. German casualties included over 360 dead, some of whom were killed after the raid when Campbeltown exploded. To recognise their bravery, 89 members of the raiding party were awarded decorations, including five Victoria Crosses. After the war, St Nazaire was one of 38 battle honours awarded to the Commandos. The operation has been called The Greatest Raid of All within British military circle. Good condition Est. £20 - 30

36 - WW2 Dambuster Raid veteran G L Johnson 617 sqn bomb Aimer signed 12x8 photo. Selected to be part of the specialist No. 617 Squadron RAF, Johnson arrived at RAF Scampton on 27 March 1943. It was at this time that he was due to marry; however, due to the requirements of the training for Operation Chastise, all leave had been cancelled. Johnson appealed to his new Commanding Officer, Wing Commander Guy Gibson, who eventually relented, giving Johnson four days' leave. McCarthy's crew in Lancaster AJ-T (T-Tommy) were detailed to attack the Sorpe Dam, the structure of which differed considerably from the other main targets insofar as it being an earthen dam as opposed to the gravity construction of the Mohne and Eder dams, thus necessitating a completely different type of attack. Like the rest of No. 617 Squadron, Johnson had practised dropping his bomb as the aircraft flew straight towards the target at low level. However, on the afternoon prior to the raid, when the five crews detailed to attack the Sorpe Dam received their briefing, they were told that they had to fly along the dam wall and drop their mine at its centre. It would roll down the wall and explode when it reached the correct depth. The specialist bomb sight developed for the raid would also be of no use. Due to various losses and technical issues en route to the target, AJ-T was the first Lancaster to reach the Sorpe, and McCarthy soon realised how difficult the attack would be. Although there were no flak batteries, the attack would require the aircraft to be flown low across the nearby town of Langscheid, with its prominent church steeple, followed by the aircraft having to drop even lower so the bomb could be released. It was not until the tenth attempt that the crew were satisfied, with Johnson finally releasing the bomb. For his part in the raid, Johnson received the Distinguished Flying Medal. Along with other members of the squadron, he received his medal in an investiture at Buckingham Palace. Good condition Est. £20 - 30

During the 17-minute raid they rescued all but one of the remaining hostages and killed five of the six hostage-takers. An inquest cleared the SAS of any wrongdoing. It was sent south in May 1940 to cover the evacuation from Dunkirk and then returned to Drem. The following month he shot down two enemy aircraft and shared in the destruction of another. Further "kills" followed and he chased a German bomber out to sea. In September 1941, he joined a fighter training unit as an instructor. He was transferred to Australia to join two Spitfire squadrons of the Royal Australian Air Force which flew from Darwin to counter Japanese bombing raids. Foster flew the first Spitfire to shoot down a Japanese aircraft and in June 1943 he led his squadron into a pitched air battle with 30 Japanese bombers. After 30 missions, Bomber Command personnel were able to stand down from active operations. But Ron's love of flying knew no bounds and he promptly switched to flying Spitfires and Hurricanes with Fighter Command, being awarded the Distinguished Flying Cross in May 1945 for his 'skill and fortitude in operations against the enemy'. 199 - WW2 Pathfinder Henry Shackleton 405 sqn bomber command signed stunning 12 x 8 inch colour Lancaster in flight photo. In 1940 Henry left school and volunteered as a Pilot at the age of 18 and 9 months, receiving his Wings as a Pilot Officer at Cranwell College one week before he was 19. He was then sent to North Battlefield, Saskatchewan as a Flying Instructor . By coincidence his elder brother and sister were born in Saskatchewan, though he was born in the U.K. In 1943, with 1,500 flying hours, he was posted to Middleton St George, Darlington, U.K. to join the R.C.A.F 419 Moose Squadron where his R.A.F. crew did 18 bombing trips in their Halifax to Germany and Italy without mishap. Thet then volunteered to join Pathfinders and were posted to R.C.A.F 405 Squadron at Gransden Lodge. 4 Pathfinder trips on Lancasters , target Berlin, went without mishap, but on the 5th one on January 30/31st 1944 they were attacked by two nightfighters, resulting in the loss of use by their port wing forcing him to shout "abandon aircraft". His Wireless Operator, Red Williams put on his navigator chest parachute, then decided to get a bar of chocolate from his desk, taking off his parachute to put it in his tunic, then replacing his chute at which he heard an explosion as Henry was blown out of the cockpit . (He obviously was suffering from lack of oxygen as the Lancaster was in a spiralling dive) He jumped out of the hole in the cockpit and landed in a Berlin street, immediately taken prisoner . After being blown out, Henry pulled on what he thought was my parachute release, but it was release of his seat harness! When it fell away he searched again and to his relief the parachute opened before he fell onto a bush in a Berlin Park. Henry hid by day and walked by night but on the third night, just after people had come out of their shelter during another bomb attack, some children surrounded him, and he was taken to the Burgermasters house, where kind ladies bathed his face and gave him food. (One could assume they were thinking of their own sons bombing the U.K. and he always feel this should be said.) However, a pompous and drunken Army Officer took Henry to a Berlin police cell (which was warm!) A few days later he met Red Williams at the Frankfurt Interrogation Centre, who told him he had been taken to a crashed Lancaster and understood their other five crew members had lost their lives. Thereafter Henry spent until March 1945, as a P.O.W. in Stalag Luft 3. They all took part in the long march to the Germans last stand in Berlin, from which 400 of them escaped from the Camp across the river to the Americans. Good condition Est. £6 - 8

209 - WW2 Robert Foster DFC Battle of Britain RAF fighter pilot signed 8 x 6 inch b/w Spitfire formation photo. Wing Commander Bob Foster was one of the heroes of the Battle of Britain, flying Hurricanes and Spitfires with 605 Squadron. He was credited with destroying and damaging a number of enemy aircraft; later in the war he destroyed at least five Japanese aircraft while flying from airfields in northern Australia. The squadron was stationed for much of the early years of the war at Drem, just outside Edinburgh, from where they patrolled the North Sea. It was sent south in May 1940 to cover the evacuation from Dunkirk and then returned to Drem. The squadron was moved south in September when Foster was heavily engaged in the Battle of Britain, and at the end of that month he achieved his first success, damaging an enemy plane while his own Hurricane was hit by enemy fire in the dog fight. The following month he shot down two enemy aircraft and shared in the destruction of another. Further "kills" followed and he chased a German bomber out to sea. In September 1941, he joined a fighter training unit as an instructor. He was transferred to Australia to join two Spitfire squadrons of the Royal Australian Air Force which flew from Darwin to counter Japanese bombing raids. Foster flew the first Spitfire to shoot down a Japanese aircraft and in June 1943 he led his squadron into a pitched air battle with 30 Japanese bombers. He was the third pilot to claim five successes over Australia (earning him the title of "ace") and a few weeks later he was awarded a DFC. Good condition Est. £6 - 8

During World War II, he was chief test pilot flying Spitfires and Lancasters at the Castle Bromwich aeroplane factory in Birmingham, run by Vickers Armstrongs, where he personally flight tested over 3000 of the 3700 Spitfires manufactured there. The factory made more than half of the Spitfires ever built, plus 350 Lancaster heavy bombers. He famously, albeit briefly, took the controls once again in a rare two-seater Spitfire flown on the seventieth anniversary of the flight of the first prototype on 5 March, 2006 at Southampton Airport. He was the only pilot known to perform a barrel roll in a Lancaster Bomber, a feat that was considered reckless and impossible due to the aircraft's size and relatively low speed. Prior to the war he had made a name for himself in air racing, winning the blue riband of air racing The Kings Cup in the fastest ever time in 1938 in his Percival Mew Gull. In 1939, in the same aircraft, he flew from Gravesend to Cape Town and back in 39hrs 36mins, a distance of 12,754 miles over desert, sea and jungle, setting a solo record for the trip which still stands.
